Challenges in Retail Industry

Complexity of multiple locations, setup of multiple company names as well as difficulties in managing controls in multiple stores, XeerSoft completes the puzzle by providing the solutions! It is a norm to face problems in managing controls of stocks, accounts, cash flows and even human resources when any business expands to exceed three branches. An estimate of 26% of retail and service business will fail in 2009. Will your business be the surviving 74%?

The XeerSoft difference

XeerSoft understands challenges of retail industry, having long-term partnership model with Econsave supermarket since its infancy till stretching of more than 30 branches nationwide. Others include Vietmaland (Timberland retailer), Family Food Joint Stock (operates 5 Parkson supermarkets in Vietnam), Healthlane Pharmacy (12 branches), Purplecane (16 branches nationwide) and many others.

XeerSoft provides business know-how, process and consultancy for business solutions in the retail industry. More than that, XeerSoft implements the solution with our renowned in-house system, further providing support, training, research, development of new features based on industry best practice, quality assurance process, hosting of servers and maintenance. A one-stop solution!
