

## March 2006

Credit Note Import through Data Exchange, Global Decimal Places for Unit Price, Stock Movement Report, Equipment Booking System, Multiple Window Switch with Shortcut Keys, Balance Show in Cash and Bank Entry, Print After Save in "Edit" Mode, Zoom Autosave

Credit Note Import through Data Exchange - Import from external sources through CSV files - Reduce manual data entry Global Decimal Places for Unit Price - We now have a separate setting for decimal places for Unit Price in the Inventory System

Stock Movement Report - New Stock Movement Template that shows Amount, Quantity and Stock In and Out.

Equipment Booking System- An Add on management system in XeerSoft to enable users to schedule their equipments

Multiple Window Switch with Shortcut Keys - Now user can switch between multiple windows using keyboard shortcuts with the combination of ALT+1 ALT+2 till ALT+5.

Balance Show in Cash and Bank Entry - For easy reference, Our Cash and Bank Entry now shows the Balance of the Current Account.

Print After Save in "Edit" Mode- This option allows users to immediately print the document after making any changes in it.

- After editing your document, you'll see the following message box whether you want to print the document.

Zoom Autosave - Xeersoft provides the user with the facility to set the zoom of the system according to their convenience by clicking on the "zoom lenses" highlighted below.

- Even if you move to another page or module, you can experience the same zoom settings.
