Financial System

Does your Financial System Do ALL THESE?

Web-based and Fully Online System

- Work **ANYWHERE, ANYTIME** with *instant, real-time* information for critical decision making

Advanced Filter with Workflow Authorization

- Centralized restriction on **WHO** will access your data and easily control transactions which need authorizations

Automated Bank Matching and Credit Card Reconciliation

- No need to retype repeated data therefore saving time, increase accuracy and reduce redundancies

Accounts Consolidation for Multiple Locations

- Control finance of different departments even in multiple locations and able to drill down details to jobs and tasks

Advanced Reports and Analysis

- Multiple reports with advance customized analysis for better overview of your business

E-payment with Bank Integration

- Allows standing instructions to banks for suppliers' payments without signing massive number of cheques

Multi-Currency

- Power your business with global competitive edge

Do you struggle with your accounts when your business operates from multiple locations? Looking for freedom to use your financial system even from home?

Own the only financial system built on **17 lengthy years of experience**, carefully **combining all functions** of existing accounting packages and thorough **research** on the needs of professionals in the financial field.

Powered by XeerSoft web-based engine XeerSoft Financial System empowers you the freedom to work anywhere, anytime. No need to step into office just to view reports or issue invoices.

Easy integration with other XeerSoft modules like Inventory, Merchandising and Management Dashboard for better visibility of your business.

Call us at **+603-9284 8286** for a free demo TODAY! Or browse to our website at <http://www.XeerSoft.com> for more information.
